Creators of beautiful bathrooms

2019 EDITION

TOP NOTCH BATHROOMS

Top Notch Bathrooms has been brought to you from the amazing owners of Swift Fix Plumbing. Having been in the plumbing industry for over 30 years, we have developed a wealth of knowledge of designing and executing the perfect bathroom.

Top Notch Bathrooms value their relationships with their clients and believe this is an integral part of our success. We're here to work with you from your very first idea, all the way through to folding the last towel.

So take a deep breath, relax and see what we can do for you.

We remove all the hassle for you, from start to finish we take care of all the planning, booking in all the top quality tradies, and ensuring that you are kept in the loop of what is happening. Communication is key!

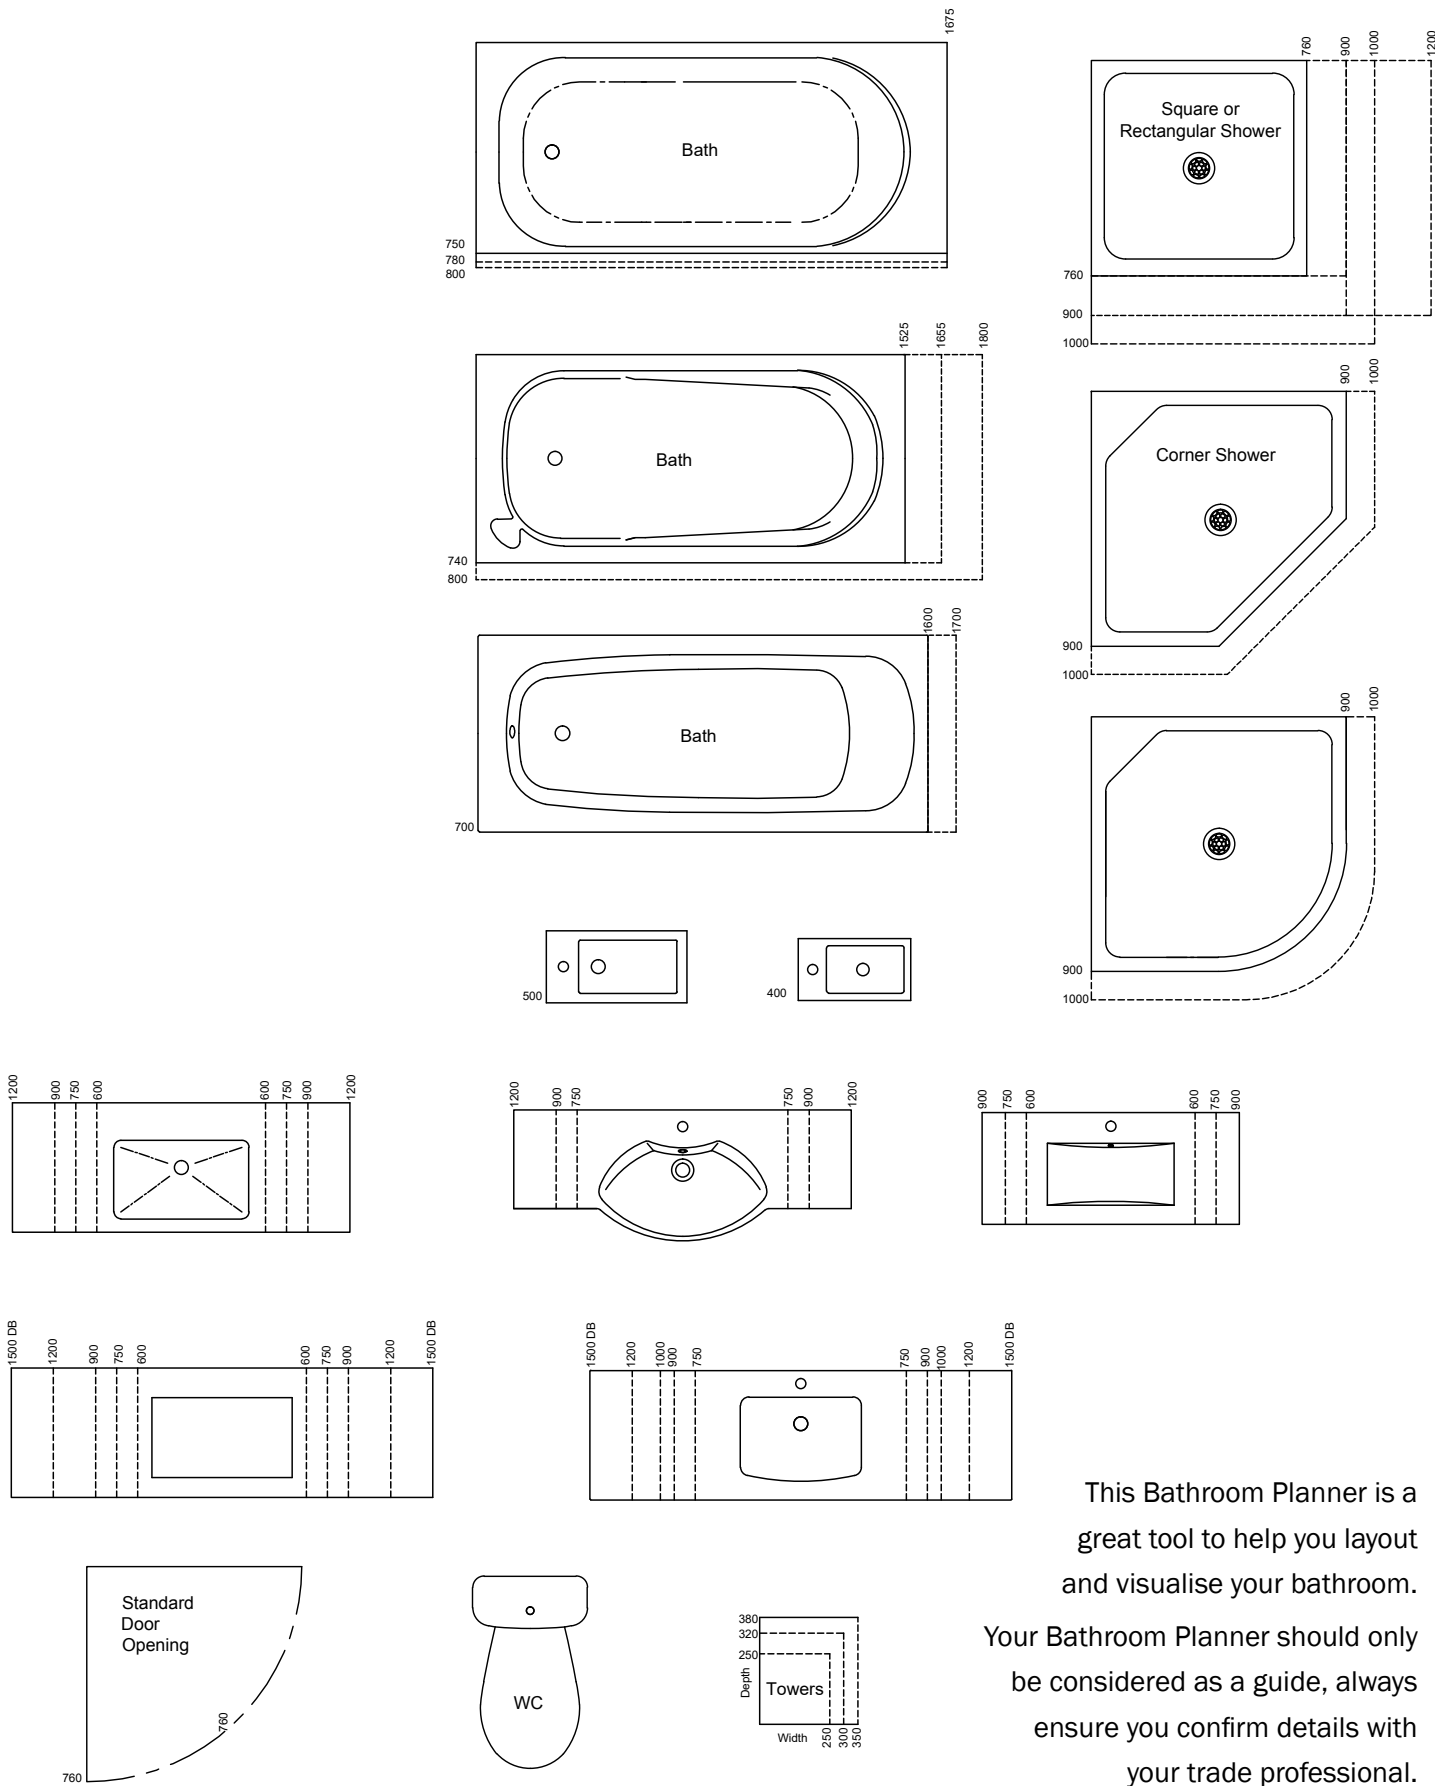

Bathrooms can be a lengthy and daunting process, not to mention choosing all your fixtures! So we have got you covered with our Top Notch Bathrooms Look Book, from the Shower to the toilet roll holder.

This book has everything you could dream of to add to your new luxurious bathroom, and if we don't have what you are looking for, our amazing team will find it for you!

Contents

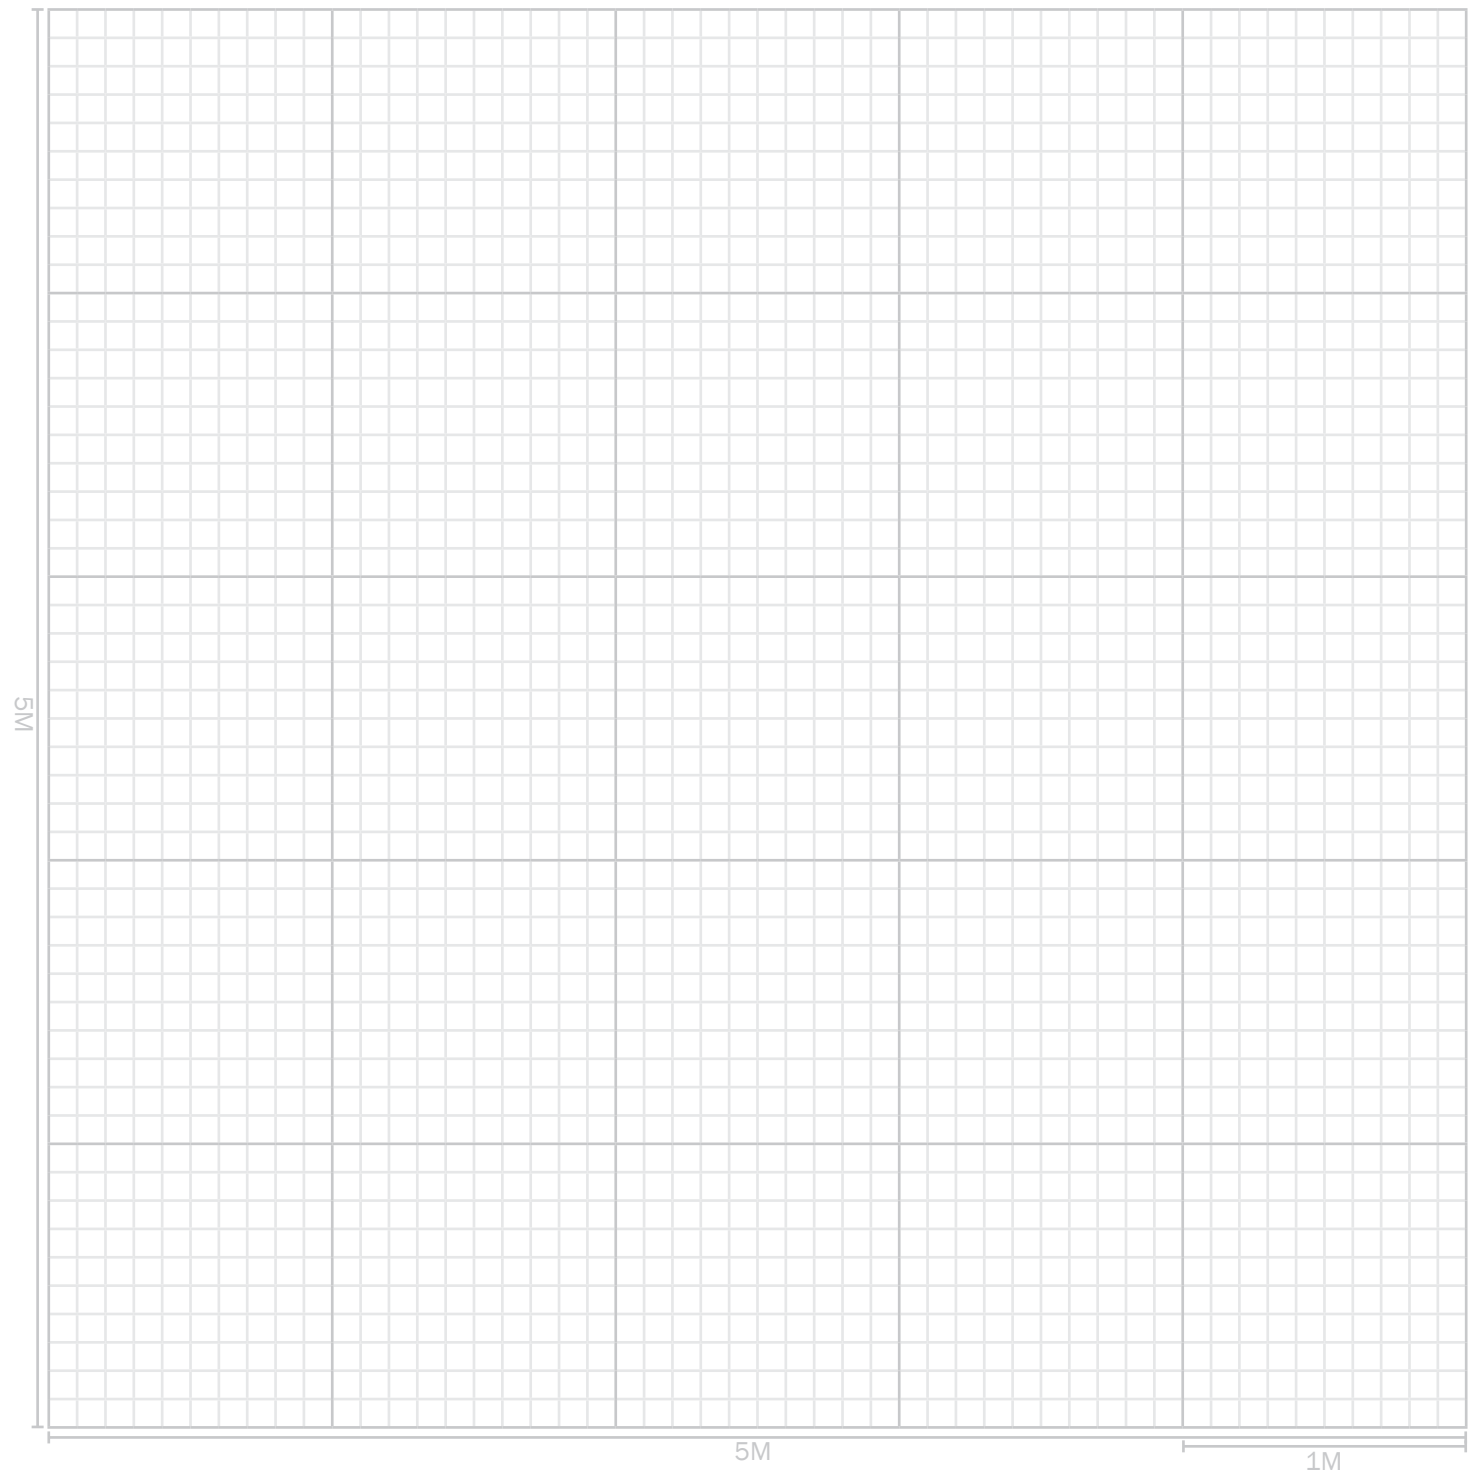

Bathroom Planner	4
Showers	6
Baths	8
Toilets	10
Vanities	12
Tapware	18
Accessories	24
Product Checklist	28

This Bathroom Planner is a great tool to help you layout and visualise your bathroom. Your Bathroom Planner should only be considered as a guide, always ensure you confirm details with your trade professional.

Bathroom Planner

1. Start by measuring the size of your bathroom space. Draw these measurements on the bathroom grid, making sure you use the scale to get the correct size and shape. One square equals 100mm.
2. Mark in any window and door positions and note the way they open. It's also useful to measure the height to the window sills, which can help with your decision on product placement.
3. If you wish to keep any existing plumbing fittings (shower mixer, taps, inlet pipes, water pipes, and toilet waste pipes) or electrical fittings (electrical points, switches and heaters), make sure you mark these onto your grid.
4. Select which products you would like in your new bathroom.
5. Once you have chosen your products, cut out each diagram from the Bathroom planner. Make sure you cut out the correct lines for the length and width of your product. You might want to double check measurements in the Catalogue prior to cutting.
6. Place all product diagrams on the Bathroom Planner and move them around until you find the combination that works best for you.

CABINET FINISHES

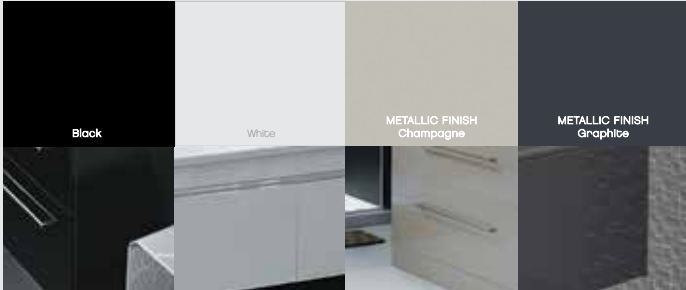

STANDARD FINISHES
Colours have been selected from around the world to complement New Zealand bathroom trends. The colour is heat bonded on to the surface of NZ board to create a hard wearing durable cabinet that when looked after, will look like new for years to come.
Super Gloss delivers an exceptional, modern finish with a deep luster. This is achieved by utilizing world leading acrylic laminate technology.

GOLD FINISHES
DURACHIQUE FINISHES (NOW ALL TEXTURED SURFACES)
This flagship colour range of Durachique, taps in to the heart of the latest European colour trends – refined and selected for New Zealand. Our Durachique cabinets are manufactured with heat and moisture resistant bonding technology to create a unique finish that is thicker and denser than standard colours. They now feature a textured surface with a tactility that sets them apart from others.

PLATINUM FINISHES
EXOCHIQUE FINISHES
Breathe life in to your bathroom with the unparalleled gloss of Exochique. Nothing compares to the world’s best gloss laminate. Amazing depth, lustre, along with higher UV and impact resistance compared to other gloss products. Exochique is a composite laminate with a hardened top layer bonded to the substrate with a unique heat and moisture resistant bonding technology.
